

How to Setup Quest 2

For Health Scholars Apps

Joining or Creating an Organization.

1. Go to <https://developer.oculus.com/manage/organizations/create/>.
2. Fill in the appropriate information.

Verify Your Account.

1. Go to <https://developer.oculus.com/manage/verify/>.
2. If prompted, login with your Oculus Developer account.
3. Verify your account with one of the two following options:
 - Confirm your mobile number to set up SMS two-factor verification.

Download Oculus ADB Drivers.

1. Download [the zip file containing the driver](#).
2. Right-click on the .inf file and select **Install**.

Install Oculus Developer Hub.

1. Download the [Windows](#) installer.
2. Install the application.
3. Open the application and log in using your Oculus credentials (facebook), which must be the same as you've used for logging in the headset.

Setting up Quest 2.

1. Make sure that the headset is charged and turned on. Bluetooth must be enabled on your computer.
2. Open ODH.
3. On the **Device Manager** tab, click the drop down and click **Set Up New Device**.
4. Read the guidance and click **Next**.
5. Select the type of headset.
6. Match the serial number, and then click **Next**.
7. Sign in with your Oculus account.
8. On the **Wi-Fi** window, select the Wi-Fi network. This should be the same network as your development computer since mismatches can cause casting issues.
9. On the **Complete Setup from Your Headset** window, put on the headset, and then follow the prompts.
10. After the headset reboots and ODH reconnects to it, use the slider to turn on Developer Mode. Your Oculus developer account must be verified to turn on Developer Mode.
11. The final screen tells you how to enable the headset to use ODH features. You must:
 - Connect the headset to the computer via USB.
 - Allow access when prompted in the headset.
